It's amongst the beautiful resorts in a given location. Calm and serene the staff is good. The food is given n they give first preference to customers requirements. They should add more activities to make this resort super hit..if u want to forget the stress n come out of your busy life. This place is very very good. You can get up and roam around the locality on cycle..it was a lovely experience.

The resort is very wonderful and very beautiful. Though resort is beautiful but the location and surrounding environment makes it more beautiful. It is like icing on the cake for the resort. Once you visit that resort, you will never forget such place. The rooms are spacious and there is turf inside the resort for playing cricket, football and other games. Along with it there is swimming pool which adds more beauty to it. The resort is well maintained and very clean. I have seen many resorts but this was the best of all.
